REWILD GLADSTONE

The Rewild program is focused on the restoration of habitat, rather than simple conservation. We have identified that a community nursery selling local native plants is an important part of this process.

AUDIENCE: Lifestylers and Traditional Conservationists

ASSETS AND CURRENT PROGRAMS:

- Logo
- Community nursery investigation
- Curtis Coast Regional Coastal Management Plan

HIGH LEVEL ACTIONS & OUTCOMES”

Action: Investigate successful nursery models nearby and set up a draft project plan.

Outcome: The project plan is adopted by an enthusiastic group of locals.

Action: Investigate in conjunction with other local groups and the regional council the feasibility of signage to protect nesting Bee eaters in urban Agnes Water.

Outcome: Local residents in Agnes Water protect their Bee eater nests wherever possible.

re

GENERATE

The Regenerate program is focussed on cutting edge research into regenerative agriculture in a grazing context.

AUDIENCE: Rural landholders

ASSETS AND CURRENT PROGRAMS:

- Mt Larcom Landcare
- Soil penetrometer
- Water infiltration meter
- pH kits

HIGH LEVEL ACTIONS & OUTCOMES:

Action: We will pilot a regenerative agriculture program in the Bracewell area and create resources so that other areas can take it on.

Outcome: This program will be self-sustaining and spread quickly and organically through farming communities in Qld.

REPOWER

GLADSTONE

A Gladstone Conservation Council Initiative

The Repower program is focused on renewable energy and environmentally friendly technology and energy systems. We work on correcting misinformation and exploring new possibilities.

AUDIENCE: Industrial

ASSETS AND CURRENT PROGRAMS:

- Logo
- Repower Gladstone Billboard
- Weekly zoom meetings
- Forums and seminars
- Moore Park Beach Action Group

HIGH LEVEL ACTIONS & OUTCOMES:

Action: We will assist and support local environmental groups to achieve their aims.

Outcome: Local groups become empowered to advocate for change.

Action: Provide forums and safe spaces for open discussion of Transition issues and renewable energy.

Outcome 1: Our community are empowered to advocate for change.

Outcome 2: Our members are active, involved and engaged.

Action: We will create high quality information products which can be used by our community that advocate for change.

The Regrow Qld program is focussed on providing high quality information to interested people in an easy to read format. We will concentrate on positive news in order to keep our readers engaged.

AUDIENCE: State wide

ASSETS AND CURRENT PROGRAMS:

- Logo
- Weekly newsletter

HIGH LEVEL ACTIONS & OUTCOMES:

Action: We will write a weekly positive newsletter called 'Regrow Qld' focussed on environmental issues.

Outcome: Our mailing list and subscription base continue to grow

OUR PRINCIPLES:

Fair transition away from fossil fuels
Public availability of data
Restoring wildlife habitat
Empowering communities
Regenerative agriculture

OUR PURPOSE:

We are a strong, independent & united voice for the Gladstone environment

**Gladstone
Conservation
Council**

OUR FOCUS:

- RePower
- ReWild
- ReGenerate
- ReGrow Qld

OUR ASSETS:

Weekly committee zoom meetings

OUR VISION:

Gladstone is a clean & green region where our wildlife & people thrive.
